

Edmonds Ferry National Mussel Watch Site PSEF, mid-intertidal summertime photo series, 2004 to 2010 (no 2006). Mussels (black objects) appeared in easily-collectable sizes and numbers in 2007 and 2008, declined in 2009 and 2010. Popweed (*Fucus spp.*) appeared in 2009. Barnacles (white growths) dominated cover in all years. Alan Mearns, NOAA.
